1. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

2. Claims 1-6 are rejected under 35 U.S.C. 103(a) as being unpatentable over Weiss et al in view of Poarch or Bolin et al as set forth in paragraph no. 4, Paper No. 032406. Further, in the absence of unexpected results it would have been obvious to select a meat having any desired fat content simply depending upon personal preference and consumer appeal.

3. Applicant's arguments filed June 26, 2006 have been fully considered but they are not persuasive. The results achieved by applicant in using powdered vinegar as opposed to liquid vinegar are totally expected. Although the pH is lowered in either instance, the moisture content of the meat is naturally higher when liquid vinegar is used as compared with powdered vinegar. Applicant's contention, that the meat breaks apart during curing when liquid vinegar is used, is unsupported by any factual evidence of record and is thus not convincing.

4. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the

Art Unit: 1761

shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
